Career Objective

Aspiring data analyst with a strong foundation in Python, SQL, Excel, Power BI, and statistics. Eager to apply analytical and problem-solving skills to real-world business challenges. A quick learner with excellent communication abilities and a passion for continuous learning.

Education

2025 **Bachelor of Computer Applications (BCA)**, *University of Madras*, Chennai, Tamil Nadu

Skills

Programming Python with libraries, SQL  
Statistical Statistics (using Python)  
Programming  
Data Tools Power BI, MS Excel, Data Cleaning, Data Visualization  
Soft Skills Communication, Self-Learning

Projects

**E-commerce Sales Analysis (Excel)** Analyzed daily sales transactions from an e-commerce dataset. Cleaned data using Excel functions, structured key columns like product category, price, delivery status, and revenue. Created pivot tables and dashboards to extract insights about customer preferences and high-performing categories, improving skills in reporting and decision-making.

**Amazon Sales Analysis Dashboard – Power BI**

Built an interactive dashboard using Power BI to analyze Amazon sales data. Utilized DAX for custom metrics and created dynamic visuals to track key performance indicators like total sales, profit, and returns. Enabled deeper business insights through filters, drill-through reports, and region/category-wise segmentation.

Languages Known

Fluent Urdu, Tamil, English

Strengths

Adaptability Able to learn and adapt quickly to new environments
